

JLAB

PREMIUM AUDIO TECHNOLOGY

JLab Audio was founded in 2005 with the mission of developing cutting-edge consumer audio products. After one and a half years of R&D, JLab entered the US and European markets in July, 2006 with the B-Flex, MiniBlaster, and JBuds, capturing worldwide attention. Newspapers and web sites from New York to Taipei praised the originality, design, and value of the new JLab line. The JLab products have been growing in popularity ever since.

JLab is committed to providing exceptional products of the highest quality, along with world class customer service and support. We are also committed to sustainable business practice, corporate responsibility, minimizing our impact on the environment, and making a positive contribution to the world.

JLab will continue to bring unique, trendsetting products to the market in the years to come. We welcome your comments and feedback.
